**WINDOW AND SLIDING DOOR REPLACEMENT  
POLICY**

**Date:** 11/04  
**Board Minutes:**

All window and sliding glass door replacements must be done with silver aluminum, extruded windows and glass doors using the construction style with no outside flanges, similar in quality to the “Milgard” style. NO VINYL CLAD windows or doors can be used.

Outside patio doors can be replaced using retro-fit style gliders but NOT ones made out of VINYL.

Pursuant to Article IX of the Park Villas North Rules and Regulations, please make sure that you present any plans for outside modifications to the Board of Directors for written approval before moving forward with the work.
